Professional Experience

- May 2018 - August 2018 **Salesforce Development Intern
IS&T at Boston University | Boston, MA**
- Constructed and deployed an original Lightning application using Aura, Apex, and Javascript to manage secure delegation of Salesforce administrative functions between departments at Boston University.
 - Developed Apex classes, Visualforce pages, Lightning components, and Javascript controllers to facilitate Salesforce adoption for university recruiting.
 - Assisted in the review and revision of Salesforce documentation received from contractor Attain, working with business heads to provide developmental perspective on required functional and component documentation.
- May 2017 - August 2017 **Salesforce Intern
Electric Insurance Company | Beverly, MA**
- Coordinated training and instructional procedure for future interns after intensive workshop in Salesforce administration and development, including Apex and SOQL.
 - Planned and designed a new suite of Salesforce objects, triggers, classes, and methods for insurance product marketing. Presented designs to senior management and received approval.
 - Deployed enhancements into production environment for use by company-wide sales teams with success.
- May 2016 - August 2016 **QA and IT Intern
Electric Insurance Company | Beverly, MA**
- Gathered millions of address data points from multiple states for use in the QA department.
 - Developed an intuitive visual basic tool to automate data gathering process for QA.
